JOB INFORMATION

Job Name: QUALITY IRONWORKS PROJECTDate: 7/14/2026

Job Number: J-303Revision: 0

GC: APEX BUILDERSFinish: PRIMER

DRAWING SHEET OPTIMIZATION

To optimize fabrication and reduce duplicate paperwork, identical balconies, returns, and loose posts have been grouped onto single master drawing sheets. Drawing sheets are only generated for the first occurrence of each unique design. The table below provides a full map of all components, showing their original drawing numbers, the assigned master drawing sheets, and the final accumulated quantities.

SET / BALCONY	COMPONENT	ORIGINAL DWG	ASSIGNED DWG	QTY	STATUS
Balcony A	Main Balcony	1.0 (1FB)	1.0 (1FB)	1	MASTER (Sheet Generated)
